Swapnil Tukaram Mane

Binghamton, New York, 13905

(607) 232 1068 | smane@binghamton.edu | LinkedIn | GitHub | Portfolio

EDUCATION

Binghamton University, Thomas J. Watson College of Engineering and Applied Science *Expected May 2025*
Master of Science in Computer Science
Courses: Design & Analysis of Computer Algorithms, Introduction to Artificial Intelligence, Design Patterns

Fr. C. Rodrigues Institute of Technology, Navi Mumbai, India *Aug 2016 - Nov 2020*
Bachelor of Engineering in Electronics, and Telecommunication Engineering CGPA: 3.12 /4.00
Courses: Structured Programming Approach, OOP using Java, Data Compression and Encryption, Image Processing and Machine Vision, Neural Networks and Fuzzy Logic, Digital Signal Processing

TECHNICAL SKILLS

Programming Languages: Python, Java, C++, C#, SQL, SAP ABAP, Visual Basic Script, HTML, CSS
Softwares: Microsoft Azure Machine Learning Studio, Microsoft Azure Artificial Intelligence Cognitive Services, SAP Logon NetWeaver, LabView, Android Studio

PROFESSIONAL EXPERIENCE

LTIMindtree Ltd. (erstwhile Larsen & Toubro Infotech Ltd.) *Aug 2020 – Jul 2023*
Software Engineer - AI/ML *Aug 2022 – Jul 2023*
- Achieved 60% training algorithm accuracy for machine learning algorithms for ticket classification
- Improving data cleaning and clustering to normalize data samples with up to 900,000 records

Software Engineer - SAP ABAP *Aug 2020 - Jul 2022*
- Honored with *GoMx Individual Excellence Award* for exemplary contributions *Jun 2022*
- Enhanced SAP ABAP codes, offering innovative solutions and assisting team members in project completion

Navavidha Techsolutions Pvt. Ltd., Junior App Developer *Jun 2019*
- Implemented multi-utility app development on HMI for Embedded Systems
- Developed games and managed peripheral device communication via Tkinter and PySerial in Python

Combined Digilog Systems Pvt. Ltd., Applications Trainee Engineer *Jan 2019 - Apr 2019*
- Applied electronics concepts including voltage converters, transistors, and resistors
- Developed Arduino-based software to detect voltage changes and ensure backup system reliability

TECHNICAL PROJECTS

Thought to Text Conversion Using Deep Learning *Aug 2019 – Mar 2020*
- Attained 55% accuracy in classifying EEG signals for neural activity in brainwave patterns
- Published a research paper in the ICTCS 2019 Journal by CRC Press, a Taylor & Francis Group publication (click here)

App Development for Embedded System *Jun 2019*
- Developed leisure games and applied open-source Snapchat filters to capture images using the open-cv library

Simple Handwritten Text Recognition using Neural Network *Feb 2019*
- Achieved a 78% accuracy using Python by expanding the dataset to alphanumeric characters (excluding special symbols)

Automatic Mains Failure System for Diesel Generators *Jan 2019*
- Designed a microcontroller-based program for switching voltage supply to backup power

Handwritten Digit Recognition using Neural Networks *Oct 2018*
- Analyzed the digits from the scanned images using the binary classification of images
- Performed 2D to 1D array conversion using image processing and trained a single-layer neural network

Bidirectional Counter for Attendance Record using IoT *Jan 2018*
- Utilized an Arduino solution to count the total number of students arriving and departing the classroom

CO-CURRICULAR ACHIEVEMENTS

- Finished the "**Introduction to Programming using Python**" course with Microsoft Technology Associate's *Sep 2018*
- Completed IEEE certification on "**Embedded Systems Training on IoT-based Platform**" *Jan 2017*
- Accomplished Basic Programming course in **C++** and **SQL** from The Pixel Project Pvt. Ltd. *May 2016*

EXTRA-CURRICULAR ACHIEVEMENTS

- Winner and runner-up in the Judgement Day Mock Interview competition for effective communication and soft skills presentation by Endeavor Careers Pvt. Ltd. Jul 2017, 2018

LEADERSHIP AND INVOLVEMENT EXPERIENCE

- Worked as **Lead Career Placement Coordinator** for the Training & Placement Office at Fr. C. Rodrigues Institute of Technology, Vashi *Apr 2018 - Oct 2020*
- Volunteered as a **student photographer** for the Electronics and Telecommunication Engineering dept. *Mar 2018*
