Swapnil Tukaram Mane

Binghamton, New York, 13905

(607) 232 1068 | smane@binghamton.edu | LinkedIn | GitHub |

EDUCATION

Binghamton University, Thomas J. Watson College of Engineering and Applied Science ***Expected May 2025***

Master of Science in Computer Science

Fr. C. Rodrigues Institute of Technology, Navi Mumbai, India ***Aug 2016 - Nov 2020***

Bachelor of Engineering in Electronics, and Telecommunication Engineering **CGPA: 3.12 /4.00**

TECHNICAL SKILLS

Programming Languages: C#, C++, Python, Java, SQL, SAP ABAP, Visual Basic Script, HTML, CSS

Softwares: Microsoft Azure ML Studio, Microsoft Azure Cognitive Services, LabView, Multisim, Eagle CAD, Android Studio, Kivy, SAP Logon NetWeaver, Eclipse, VS Code

Concepts: Arduino, Raspberry Pi, 8051 microcontrollers, Neural Networks, Fuzzy Logic, Deep Learning, SAP ABAP, Machine Learning, Data Science

PROFESSIONAL EXPERIENCE

- *LTIMindtree Ltd. (erstwhile Larsen & Toubro Infotech Ltd.)* ***Aug 2020 – Jul 2023***

Software Engineer - AI/ML ***Aug 2022 – Jul 2023***

- Led the initiative to revamp or automate the software application systems using the Microsoft Azure ML Studio
- Managed data sets, cleaned, clustered, classified, and analyzed the Data Science project lifecycle with data size of up to 900,000 records
- Deployed end-to-end designed training models and application of machine learning algorithms
- Automated classification of text to replace daily redundant manual efforts

Software Engineer - SAP ABAP ***Aug 2020 - Jul 2022***

- Honored with *GoMx Individual Excellence Award* for exemplary contributions ***Jun 2022***
- Provided new solutions, improved and revamped the SAP ABAP client-specific codes, and assisted colleagues in completing the project tasks
- Implemented necessary SAP Notes upon debugging and analyzing the monthly production system dumps

- Yocket Pvt. Ltd., ***Community Mentor*** ***Oct 2022***

- Directed and helped the Yocket student community and solved queries to motivate students to apply and choose the right higher education opportunities based on their intended career path

- Navavidha Techsolutions Pvt. Ltd., ***Junior App Developer*** ***Jun 2019***

- Worked on HMI for Embedded Systems during one-month internship
- Created games and managed serial read/ write from peripheral devices using Tkinter and PySerial Python libraries

- Combined Digilog Systems Pvt. Ltd., ***Applications Trainee Engineer*** ***Jan 2019 - Apr 2019***

- Worked as an Applications Trainee in implementing Power Electronics with Embedded Systems.
- Implemented the electronics concepts of step-down voltage converters, transistors, resistors, and other components
- Detected changes in voltages and designed a software solution to maintain a backup system using Arduino Board

- Jawaharlal Nehru Port Trust, ***Industrial Exposure Trainee*** ***Dec 2018 - Jan 2019***

- Observed and studied the maintenance procedure of the heavy machinery and cargo planning
- PLC Code to operate the large-scale cranes and different types of sensors for safety measurements

- AIESEC India, ***Senior Executive - Corporate Relations*** ***Dec 2017 - Mar 2018***

- Performed a thorough job marketing along with sales calling and lead generation
- Handled incoming customer relationships for culture exchange programs

TECHNICAL PROJECTS

- ***Thought to Text Conversion Using Deep Learning*** ***Aug 2019 – Mar 2020***

- Utilized an EEG graph to detect the neuron activity that contributed to the wavelength signal of our thinking process
- Classified and trained the algorithm to identify the sampling waves for each word
- A research paper is published in ICTCS 2019 Journal a CRC Press Taylor & Francis Group

- Thought-to-Text Conversion Using Deep Learning (taylorfrancis.com)

- ***App Development for Embedded System*** ***Jun 2019***

- Created fun games like Tic Tac Toe, bounce ball, and snake game
- Applied open-source Snapchat filters using an open-cv library for clicked images

- ***Simple Handwritten Text Recognition using Neural Network*** ***Feb 2019***

- Utilized a similar analogy of the below digit recognition system to all sets of text excluding the special characters
- Collected the data set for all the alphabets and digits with variations in the handwriting

- ***Automatic Mains Failure System for Diesel Generators*** ***Jan 2019***

- Converted the 3-phase voltage i.e., each phase 325 V to step down 3 V
- Monitored the changes in the voltages closest to 3-digit precision
- Developed software program for switching from the main voltage supply to backup power using the microcontroller

- ***Handwritten Digit Recognition using Neural Networks*** ***Oct 2018***

- Analyzed the digits from the scanned images using the binary classification of images
- Implemented image processing for converting a 2D array into a 1D array and trained single-layer neuron network

- ***Bidirectional Counter for Attendance Record using IoT*** ***Jan 2018***

- Calculated the total number of students entering and leaving the classrooms
- Essentially re-positioning the sensors has applications for freight trucks, store-rooms, parking lots, etc.
- https://github.com/SwapnilMane22/Bidirectional-Attendance-Barcode-Counter

CO-CURRICULAR ACHIEVEMENTS

- Winner of the runner-up prize for the project under the project competition by IETE-ETSA. ***Feb 2019***
- Participated in the Texas Instruments University Program's online contest "MSP430" ***Jan 2019***
- Completed the Microsoft Technology Associate's "Introduction to Programming using Python" course. ***Sep 2018***
- Competed in "ANALOG," a Texas Instruments University Program's online contest. ***Jul 2018***
- Participated in the IEEE Technovention State Level Project Competition. ***Mar 2018***
- Winner of the first prize in the project competition held by IETE-ETSA. ***Jan 2018***
- Completed IEEE certification on "Embedded Systems Training on IoT-based Platform". ***Jan 2017***
- Completed Basic Programming course in C++ and SQL from The Pixel Project Pvt. Ltd. ***May 2016***
- Participated and Passed in the International Standard of ABACUS COMPUTATION Proficiency Examination held by UCMAS Mental Arithmetic (INDIA) Pvt. Ltd. ***Feb 2007***

EXTRA-CURRICULAR ACHIEVEMENTS

- Winner and runner-up of Judgement Day Mock Interview competition for effective communication and a soft skills presentation held by Endeavor Careers Pvt. Ltd. ***Jul 2017, 2018***
- Completed online Diploma course in Adobe Photoshop offered by Shaw Academy, Dublin. ***Oct 2017***
- Passed Elementary Grade Drawing Examination held by Government of Maharashtra Drawing Grade Examinations ***Aug 2012***

LEADERSHIP AND INVOLVEMENT EXPERIENCE

- Worked as **Lead Career Placement Coordinator** for Training & Placement Office at Fr. C. Rodrigues Institute of Technology, Vashi. ***Apr 2018 - Oct 2020***
- Worked as a **student photographer** for various events under IETE- Student Forum, Council of the Department of Electronics and Telecommunication Engineering ***Mar 2018***
- Voluntarily organized "MICRO 2k17" for the IETE-ETSA under the Electronics and Telecommunications Department ***Jul 2017***
- Worked as Head of the Freshmen Committee under Fr. C. Rodrigues Institute of Technology, Vashi. ***Apr 2017***
